

# It's A Breeze

Getting your first Brazilian takes a little courage, but the pristine smoothness after makes the experience all worthwhile.

For the comfort and enhanced freedom of movement it promises, Brazilian hair removal is becoming increasingly popular with men. And because reaching those well-hidden strands by yourself is virtually impossible, many men choose

to turn to male therapists who are skilled in this delicate art instead.

To discover what Brazilian waxing involves, we seek out Thomas Tong, founder of Thomas d'Esthetique, a leading proponent of men's aesthetics, wellness and skincare. Armed with 20 years of experience, Thomas is also the first therapist for men, specialising in Brazilian hair removal.

Thomas insists on training all his male therapists in the highest standards of hygiene. After all, for such a delicate procedure, comfort and professionalism are absolutely essential. So if you are after a smooth, sleek physique and in half the time, Thomas' Brazilian waxing skill is highly recommended.

## The Boyzilian Experience

### 1 Remove clothing

This protects your clothing from being covered with hair and also allows your aesthetician to remove every renegade strand.

### 2 Prep to be waxed

As you lie on your front, you may feel embarrassed and nervous. The thought of warm beeswax applied on

your nether region may be unsettling. But it will be over in a jiffy.

### 3 Total elimination

You now turn around as the hot wax is applied onto hard-to-reach spots and cotton strips are placed on your skin. With a swift sweep, the strips are peeled off. To ensure that the sensations

are fleeting, great skill is essential, especially when pesky hair is removed from the testicles. Tip: At this point, relax for best results.

### 4 Final inspection

Admire the new you. Bask in the feeling of being "clean" and follicle-free! Be rid of unpleasant odours and unsightly tendrils.

▶ A Brazilian will root out every possibility of saddle irritation while cycling and underwater drag while in the pool or the open sea.

▶ You can now show off your physique without exhibiting unsightly bristles.

▶ Hygiene and comfort levels will hit new highs, which will in turn please your partner.
