

# LEAVE YOUR HAIRY ISSUES TO US

**Why bother to face stumps in life? Get it done over with! Your search for permanent hair removal is over with our new and latest XES!**

There's no reason to allow unsightly hair exhibit themselves 'gloriously' to the world. Why bother when you can permanently get rid of them to look more attractive. These days, keeping it silky smooth is seen as hygienic, youthful and sexy! Many have been searching for the right technologies for permanent hair removal to inhibit development of new hair. At thomas d'esthetique, we know your needs. Your search is over with our latest technology - **Xenon Energy System (XES)**!

As the pioneer and expert of body hair removal, thomas d'esthetique is a haven that provides only genuine solutions for men bothered by unwanted hair, or yearned to look charmingly smooth and sexy. With XES, you are guaranteed to be free of any hairy issues!

## **The latest technology that permanently removes the unsightly - Xenon Energy System (XES)**

A product from Japan, XES is the latest technology that promises permanent hair removal for at least 3 long years. Unlike IPL depilation, which transmits with heat above 62°C risking a burn to the root of hair follicle or skin, XES allows you to experience a **PAINLESS, WARM and COMFORTABLE SENSATION** during treatment. No worries for side effects like redness, abrasion, hyperpigmentation and bruises!

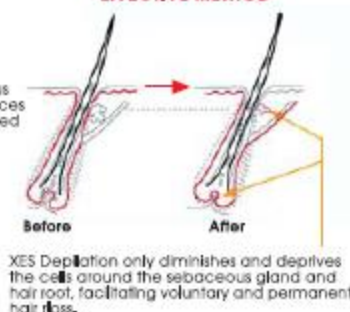

### CONVENTIONAL IPL DEPILOTION

### REVOLUTIONARY XES DEPILOTION

### INSTANT AND EFFECTIVE METHOD

**XES** works to diminish and deprive nutrient supply to the cells around the glands and hair root to permit hair to fall off naturally and permanently without destroying sebaceous glands and cells of the dermal (hair) papillas. The most wonderful part of XES is - you need not have to grow your hair to the normal requirement 2mm before the next treatment! It works miraculously and directly on your skin! For a smooth experience, visit or call thomas d'esthetique today!
